

Robotic Design for Precise Marks

The Original PINSTAMP® TMP6100

Great for cylindrical marking where a rotary device can add efficiency and practicality

Durable components **withstand tough manufacturing environments**

Satisfies a wide range of marking applications while **integrating into factory automation networks**

AutoSense motorized Z-Axis mounting post ensures **consistent pin stroke and critical standoff distance is consistently repeated**

Additional Features

- TMP6100EAS: Available as electric model
- Choice of interchangeable marking pins: .001 in - .018 in (0.03 mm - 0.34 mm)
- Marking speeds up to two characters per second
- Automatically generates serial numbers, time, date, and shift codes
- Easily interfaced to PLCs and host computers

Controllers

- TMC470**
Fixed Button Controller
- TMC520**
Touch Screen Controller Powered by Merlin®
- PC**
w/ Merlin®

Options and Accessories

- Rotary fixtures for marking cylindrical parts
- Marking head mounting post, including programmable Z-axis
- Panel-mount and IP/NEMA-rated controllers
- Easy and free software upgrades
